Price 6d. or 12 cts.

This Journal is published every Wednesday and Saturday morning, and is distributed by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, AUG. 19, 1863.

INTERNATIONAL FINANCIAL SOCIETY.
[From the London Times of 3d. July.]

The plan for the reorganization of the Hudson Bay Company—one of the most important proposals, both in a financial and national sense, ever introduced on the London money-market, has been published this afternoon. The capital stock of the company, which has hitherto been £500,000, and which has now been bought up from the old proprietors for \$1,500,000, will henceforth be £2,000,000, and subscriptions for this are now invited by the International Financial Society, who, for a certain commission, have undertaken all the arrangements connected with the change of proprietorship. The stock will be in the form of certificates of £20 each, and the whole amount may be paid in instalments extending to the 1st of January, or in full; with the advantage of discount at the rate of 4 per cent. per annum. Sir Edmund Head, formerly Governor-General of Canada, is to be the Governor, and Mr. C. M. Lampson, the most experienced merchant in London connected with the fur trade, Deputy Governor; with six directors of high commercial reputation—viz.: Messrs Eden Colville, G. Lyall, Mr. P. D. Meinertzhagen, (of Hutch & Co.), J. S. Hodgson, (of Finlay, Hodgson & Co.), J. H. W. Schroder, and Richard Botter.

The property which will belong to the company in its new form, will consist of all the material assets, such as stores, ships, etc., hitherto employed in the trading operations of the Hudson Bay Company, and valued at £1,023,569, a cash balance of £270,000 and the entire landed territory granted to the company under their charter nearly two centuries ago, extending over an area nearly half as large as Europe, and in the southern portion of which, connecting Upper Canada with British Columbia, there is a fertile and temperate tract for settlement said to comprise more than twice the area of France. Up to this time the policy of the Hudson Bay Company has been one of rigid exclusion—settlers have been kept off from the territory, and the sole object has been to preserve the country as a chase for the Indians, the barrier with whom has enabled a steady income to be realized, the continuance of which will be sufficient, apart from any new sources of income, to yield 4 per cent. on the new capital of £2,000,000.

The fresh operations contemplated by the company are the erection of a telegraph line connecting Canada with British Columbia, which will pass through 2,500 miles of their territory, and for which the Provincial Governments have offered an annual subsidy; the settlement of the country along that route, skirting the rapidly rising State and Territories of Minnesota, Nebraska and Washington; the leasing or development of the mineral deposits believed to abound at many points, and especially near the head of Lake Superior, and also on the eastern slopes of the Rocky Mountains; and the encouragement by every possible facility of all the undertakings that are certain naturally to suggest themselves on the opening up of a field of this kind for the first time to agricultural and commercial enterprise. When it is recognized that in the State of Minnesota, which adjoins the lands of the company, and which six years ago was a wilderness, there are now said to be more than 200,000 inhabitants, and that the telegraph line to San Francisco through the United States is alleged to have paid the cost of its construction in a single year, it is difficult not to entertain a sanguine view of the value which this property may attain.

It may be added that besides the assets and lands already described there are some valuable estates in Vancouver's Island, a large tract of land in Minnesota, and a claim under the Oregon treaty on the United States Government, variously estimated at from £100,000 to £300,000, all of which belong to the company. Mr. Watkin, Chairman of the Grand Trunk Railway of Canada, is now in Canada and about to visit the Red River Settlement. He is empowered to call councils of the factors in the employment of the Hudson Bay Company—an upright, hardy, intelligent body of men—and will forward concert measures to increase the efficiency and profits of the existing trade, and to provide without interfering with that trade, for the development of telegraphic and other communication in the more available portions of the property.

The London Star of 3d June, after giving an account somewhat similar to the foregoing, of the new company, remarks:—

Among other objects from which the company will derive great benefits, will be the establishment of telegraphic and postal communication between Canada and British Columbia, and the connection of the Atlantic and the Pacific by an exclusive British route—objects that have been and will be facilitated and encouraged by the Imperial and the local colonial Governments, based upon a 5 per cent. guarantee.

This same International Financial Association seems to be doing a large business in getting up companies. The Times says upon another day: The International Financial Society have introduced to-day an undertaking to be called the Egyptian Commercial and Trading Company, of which they offer for public subscription one-fourth of the proposed capital of £2,000,000, the re-

maining three-fourths having been subscribed by firms at Alexandria, as well as in London and on the continent. The shares are to be of £20 each. Prince Halim Pasha, the uncle of the Viceroy of Egypt, is the President of the Company, and the object is to develop the commerce of the interior, and especially of the districts watered by the Nile, by establishing trading posts, whether produce can be brought and exchanged. The enterprise is said to be warmly supported by the Viceroy, who to facilitate it has undertaken to complete at his own expense telegraphic communication between Alexandria and the principal points with which relations are to be opened up. Under the management of experienced persons, and with the full countenance of the Government, the contemplated operations should be comparatively free from risk, and may serve to stimulate greatly the progress of Egypt and our mercantile relations with that country.

The British Columbian.

NEW WESTMINSTER, WEDNESDAY, AUG. 19, 1863.

LIBERTY TO THE SERFS OF COLUMBIA.

The little cloud which we descried away in the distance several months ago now hangs over this parched and thirsty land, and even now do we feel the first droppings of the shower. We announced last spring that our delegate to England had been successful, and that the realization of our long and fondly cherished hopes was merely a matter of time. It is true that, like famishing men standing over the pot waiting its boiling, the time has passed heavily, and some have, meanwhile, fainted. But though "a watched pot is long in boiling" our political pot has at length commenced to boil, as all pots will by patient waiting; and it is satisfactory to know that the first scum brought to the surface is that vampire which has, from our political birth to the present day, been sucking our life-blood, hindering our progress, insulting our manhood.

It is not our present purpose to inflict upon our readers a recitation of the wrongs perpetrated by the selfish, incompetent and unscrupulous Bureaucracy by whom this Colony has been misgoverned, and for whose special aggrandisement its interests have been so systematically, palpably and basely sacrificed. To dwell upon that theme has been our unpleasant duty during the last three years; and we shall be but too glad to exchange it for a more grateful one, and will, therefore, hail with pleasure the advent of a new Government respecting which we may hope to have at least something good to say. We would wish to bury, deep in the oblivion of the past, with all its wrongs and unpleasant associations, the miserable, grasping, selfish clique under whose regime we have suffered so much.

There is just one point, however, to which we would briefly advert before taking leave of this part of the subject. In a dispatch from the Duke of Newcastle to the Hon. M. Cameron, under date of February 10th, we find the following passage: "Before long I hope to inform the Colony through the Governor what are the provisions of the new Bill, and I trust that they will prove satisfactory to all such as seek the happiness, contentment and prosperity of the inhabitants." Now, making due allowance for the well known tardiness of His Grace's movements, the information alluded to must surely have reached Mr. Douglas long ere now. Indeed we happen to know that it did reach His Excellency more than two months ago. Why, then, has this information been kept from the people for whom it was intended and to whom it is so important? The conduct of the Governor in thus suppressing important information transmitted through him for the colonists by Her Majesty's Colonial Minister is certainly a high-handed and at the same time a despicable piece of chicanery; and yet this act is in strict keeping with his policy from the beginning.

So it would seem Mr. McClure's letter, which was published in the Victoria papers, possessed more truth than elegance. It was probably written after dinner, when, under the inspiration, he at once gave expression to his detestation of tea-totalism, and "blabbed" what a more experienced diplomatist would have kept to himself. But, be that as it may, the sceptical amongst us must now be convinced that when Mr. Cameron wrote that he had succeeded in his mission he said no more than the circumstances warranted, and no less than, as our delegate, he had a right to say. His assurance in general terms ought to have satisfied every reasonable man, while his duty as a diplomatist was, under the circumstances, to leave to the Duke the task of informing us respecting details, information out of which we have been cheated by our absentee Governor.

We are not yet made aware of the provisions of the new Bill, yet upon two cardinal points all doubts are set at rest—Mr. Douglas is 'not to be our Governor and there is to be no union of the Colonies; and with these important points settled we will not be so difficult to please in respect to details. As respects ourselves we did not entertain much doubt upon either of these points. So soon as we received Mr. Cameron's assurance of success we felt that all was right; for there could have been no success unless we were relieved from that incubus which has been the primary cause of all our woes—unless we were delivered from a union which would, for a time at least, have placed us more fully and helplessly in the hands of a rapacious enemy and heartless rival.

It is satisfactory to know that Mr. Douglas is at length to drink the cup of his own iniquity. To relieve him "in consideration of his long ser-

vice," and that one year before the expiration of his term as Governor of this Colony, is a fitting punishment for the gross betrayal of Royal trust—sacrificing the interests of a whole Colony for his own private advantage. It is true his dismissal does not constitute restitution, but with a good government of our own we shall not be very long in outgrowing the ill effects of five years' maladministration—in demonstrating to Victoria and to the commercial world the natural advantages of New Westminster as a great entrepot for the British Pacific as well as the terminus of overland communication.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad
Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance whenever this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflammation.

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighbouring parts, when all skinous matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

Eruptions, Scald Head, Ringworm & other Skin Diseases.

After fomentation with warm water, utmost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood and derangement of the liver and stomach, consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

Sore Throats, Diphtheria, Quinsey,
Mumps & all other Derangements
of the Throat.

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

Scrofula or King's Evil and Swelling
of the Glands.

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bite of Mosquitoes.	Fistulas.	Skin-diseases.
and Sand-Flies.	Gout.	Scurvy.
Coco-bay.	Glandular Swellings.	Sore-heads.
Chiefo-foot.	Lumbago.	Tumors.
Corns (soft).	Piles.	Ulcers.
Cancers.	Rheumatism.	Wounds.
Chilblains.		Yaws.

Sold at the establishment of PROFESSOR HOLLOWAY 244, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1jd., 2s. 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

*There is a considerable saving by taking the larger sizes.

N.B.—Directions for the guidance of patients in every disorder are affixed to each Pot. au15

Poetry.

A Reverie.

Dark and stormy is the night,
Not a single ray of light
Pierces through the gloom;
All without is dark and drear,
But the morn will soon be here.

All without is dark and drear,
Stormy billows o'er me roll,
Naught of hope appears;
All the world seems dark and drear,
All within is doubt and fear.

Fairest hopes have passed away,
And with them the light of day
From my soul hath fled;
Will it never return to me?
Shall it thus forever be?

Will the night forever last?
Shall sad memories of the past
Ever come to me?
Shall my spirit ever know
Aught but sorrow, grief, and woe?

Will the morning never come
To dispel the fearful gloom
Setting o'er me the new?
Shall my spirit ever be free?
Shall it thus forever be?

No: the morn will come at last,
When my weary soul hath passed
Through death's lonely vale;
Then, my soul, remain content,
Nor thy sorrows thus lament.

JOHN D. HULL.

THE GRIZZLY.—The grizzly bear (*Ursus horribilis*) is the largest and most formidable of the quadrupeds of California. He grows to be 4 feet high and 7 feet long, with a weight, when very large and fat, of 2,000 pounds, being the largest of the carnivorous animals, and much heavier than the lion or tiger ever get to be. The grizzly bear, however, as ordinarily seen, does not exceed 800 or 900 pounds in weight. In color the body is a light greyish-brown, dark brown about the ears and along the ridge of the back, and nearly black on the legs. The hair is long, coarse and wiry, and stiff on the top of the neck and between the shoulders. The "grizzly," as he is usually called, is more common in California than any other kind of bear, and was at one time exceedingly numerous for so large an animal; but he offered so much meat for the hunters, and did so much damage to the farmers, that he has been industriously hunted, and his numbers have been greatly reduced. He ranges throughout the State, but prefers to make his home in the chaparral or bushes, whereas the black bear likes the heavy timber. The grizzly is very tenacious of life and he is seldom killed by a single bullet. His thick, wiry hair, tough skin, heavy coats of fat when in good condition, and large bones, go far to protect his vital organs; but he often seems to preserve all his strength and activity for an hour or more after having been shot through the lungs and liver with large rifle balls. He is one of the most dangerous animals to attack. There is much probability that when shot he will not be killed outright. Where merely wounded, he is ferocious. His weight and strength are so great that he bears down all opposition before him, and he is very quick, his speed in running being nearly equal to that of a horse. In attacking a man, he usually rises on his hind legs, strikes his enemy with one of his powerful fore paws, and then commences to bite him. If the man lies still, with his face down, the bear will usually content himself with biting him for a while about the arms and legs, and will then go off a few steps and watch him. If the man lies still, the bear will believe him dead, and will soon get tired and go away. But let the man move, and the bear is upon him again; let him fight, and he will be in immediate danger of being torn to pieces. About half a dozen men, on an average, are killed yearly in California by grizzly bears, and as many more are cruelly mangled. *Hittell's Resources of California.*

WATCHMAKING IN AMERICA.—In Waltham, Massachusetts, there is a watch manufactory which employs nearly 500 artisans, and turns out 50,000 watches annually. All the works of the watches are made by machinery. One pound of machinery, worth a guinea, is converted into 100,000 watch screws worth £700. The jewels are perforated by a drill which is as fine as a spider's web, and the perforations are measured by gauges that indicate the ten-thousandth part of an inch. If a Waltham watch gets out of order anywhere in America, any part of the works can be obtained, exactly suitable, by sending the number of the watch to the manufactory. America now pays Europe a million sterling a year for watches.

HOLLOWAY'S OINTMENT AND PILLS.—Outward Infirmities.—Before the discoveries of these remedies, many cases of sores, ulcers, &c., were pronounced incurable, because the treatment pursued tended to destroy the strength it was incompetent to preserve, and to exasperate the symptoms it was inadequate to remove. Holloway's Pills exert the most wholesome powers over unhealthy flesh or skin, without debarring the patient from fresh air and exercise; and thus the constitutional vigour is husbanded; while the most malignant, abscesses, and skin diseases are in process of cure. Both Ointment and Pills make the blood rich and purer, instead of permitting it to fall into that poor and watery state so fatal to many labouring under chronic ulcerations.

THE BRITISH COLUMBIAN.

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

All Disorders affecting the Liver, Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alteratives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerfully tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

Weakness and Debility, Nervous Irritability.

The wholesale effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. Their general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

To Regain Health, Strength and Vigour.

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

Old Coughs, Colds and Asthmatical Affections.

These Pills, assisted in their action by rubbing Holloway's Ointment very effectually twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and even when patients who were in so bad a state as not to be able to lie down on their beds lest they be choked with phlegm.

Derangement and Distention of the Bowels, Flatulency, Diarrhoea and Dysentery.

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions: delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

Very Important, of Costiveness Beware.

Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flies to the head, a small vein is ruptured on the brain, and we know the rest. Let wives save their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:

Ague	Female Irregularities	Retention of Urine
Asthma	Fever of all kinds	Scrofula, or King's Evil
Bilious Complaints	Fits	Sore Throat
Blotches on the skin	Gout	Stone and Gravel
Bowel Complaints	Head-ache	Secondary Symptoms
Colic	Indigestion	Tie Douloureux
Constipation of the bowels	Inflammation	Tumours
Consumption	Jandice	Ulcers
Debility	Liver Complaints	Venereal Affections
Dropsy	Lumbago	Worms of all kinds
Dysentery	Piles	Weakness, from whatever cause, &c., &c.
Erysipelas	Rheumatism	

Sold at the establishment of PROFESSOR HOLLOWAY, 244, Strand, (near Temple Bar) London: also by all respectable Druggists and Dealers in medicines throughout the civilized world, at the following prices:—1s. 1jd., 2s. 9d., 4s. 6d., 11s., 22s., and 35s. each Box.

* There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box. au12

CARIBOO

EVERY PERSON SHOULD KNOW

THAT THE

Shortest, Best and Cheapest

ROUTE

TO THE

CARIBOO MINES

IS VIA THE

YALE AND LYTTON

WAGON ROAD.

The chained distances on the Yale and Lytton Road are as follows:

From Yale to Boston Bar,	25 Miles.
" Boston Bar to Lytton,	32 "
" Lytton to McLean's,	47 "
" McLean's to Junction of Wagon Roads, ..	19 "

Distance from Yale to Junction, 124 "

COMPARE THE ABOVE

with the following distances set down by Lillooet Shippers:

From Douglas to Lillooet,	110 Miles.
" Lillooet to Junction,	47 "

Dist. from Douglas to Junction, 157 "

THE JUNCTION

is the point at which the Wagon Roads intersect each other, and where the Cariboo-bound traveller by the Yale-Lytton and Douglas-Lillooet routes MUST meet. It will, therefore, be seen by the above figures that the traveller by YALE and LYTTON has

THIRTY-THREE MILES LESS TRAVEL

than if he went by the Douglas-Lillooet route.

Remember that on this Route there are NO PORTAGES where Goods or Animals may be detained.

Messrs. DUNIG, LANE, BLACK, and other Carriers of Merchandise, advertise to

Carry Freight from Yale to Lytton

\$20 per Ton Less

than is or will be charged on the Douglas-Lillooet route.

The New and Splendid Steamer,

RELIANCE!

CONNECTS WITH THE VICTORIA STEAMER

ENTERPRISE,

and conveys her Freight and Passengers to Yale at greatly reduced rates.

SHIPPERS

desirous of getting Freight through to Cariboo this season are advised to

Shun the Douglas-Lillooet Route!

and are referred to the testimony adduced in the CRANFORD CASE, wherein witnesses have stated upon oath that 15, 20, or even 30 days is a reasonable time to convey Freight from Douglas to Lillooet.

Five Days Only are required to

Carry Goods from Yale to Lytton, and

SHIPPERS ARE ASSURED

that if Freight is carried from Douglas to Lillooet at Two Cents per lb.,

Carriers are prepared to Carry

FREIGHT FROM YALE TO LYTTON

WITH SAFETY AND DESPATCH, FOR

One Cent Per Pound!!!

All those who allow themselves to be crammed by Douglasites this year need expect no sympathy from the public if they get broke trying to get goods through that route.

Remember the Cranford affair; and steer clear of extortion and delays.

Travel the Yale and Lytton Wagon Road to the Cariboo Mines.

New and Commodious Hotels have been erected at convenient distances along the entire length of the route, where FIRST-CLASS ACCOMMODATIONS for both man and beast are bestowed AT MODERATE RATES.

For CHEAPNESS, DESPATCH, EASE and SECURITY, choose the YALE and LYTTON ROUTE in preference to all others in British Columbia.

Printed and published every Wednesday and Saturday, by JOHN ROBSON, at the office, Lytton Square, New Westminster, in the Colony of British Columbia.
